Fox 8500-D Truckmount by Organic Compounds Inc.

Same monster mount as the Fox 8000 Truckmount , but comes with two floor wands and 300 ft of vacuum and solution hoses

Fox 8500-D Features:

1. 5.6 Vacuum Blower (575 Free Flow CFM)
2. 33" Wide X 65" Long X 33" Height
3. 1150 Lbs.
4. 48 Month battery (the competition only provide a lawn tractor battery or no battery at all)
5. The Largest and Quietest Vacuum Blower Silencer in the Industry!
6. NO WAST TANK NEED! 4300 Gallons Per Hour Belt Driven Auto Dump System Installed
7. 44 Horse Power Engine runs at only 2000 Rpm (just above idle for long life of your investment)
8. Stainless Steel Mini Recovery Tank With Nylon Mesh Filtration
9. 2500 Psi @ 4.2 Gpm Giant Pressure Pump (Optional 5.7 Gpm available for pressure washing \$600 more)
10. Dual High Pressure Heat exchangers (first one runs off the engine exhaust, then the heated water runs through the second heat exchanger which runs off the 44 HP engine radiator. This second heat exchanger works as a two fold purpose: a) to heat the water fast when cold, b) cool the water down when getting too hot from the first heat exchanger. This eliminates the use of heat diverter valves, temperature selinods, wand bypass valves, and fast filling waste tanks. Fewer things to break down, fix, or mantain.) These heat exchanges can handle 1500 psi!
11. Guages: Oil Pressure, Hour Meter, Temperature, Vacuum, Voltage Meter, tachometer
12. 300' vacuum and high pressure solution line
13. 2 - Double bend, Double jet floor stainless steel floor wands
14. No stink waste tank system with auto clean feature. The mini waste tank system with auto dump has a built in automactic tank cleaning feature. When finished for the day just throw a ball valve and spray jets inside the tank clean the sides! No more nasty clean-up work!
