Phoenix Axial Focus Fan Air Mover

Manufacturer : Therma-Stor

The Phoenix Axial Air Mover is the industry's only air mover specifically engineered with patent pending FOCUS Technology. FOCUS Technology revolutionizes evaporative drying by producing air velocities at least 40% greater than competitive product offerings. Additionally, this highly focused air flow is directed towards restoration industries problematic drying areas namely, carpet and pad, sub-floor, and walls. Finally, the Phoenix with FOCUS Technology sustains these air flows over 22.5 feet.

Phoenix's Axial Air Mover includes a 2-speed fan delivering a FOCUSED 3000 cfm airstream, lightweight stackable enclosure designed to fit technicians' vehicles, onboard duplex GFCI outlet, circuit breaker, and superior cord management.

- FOCUS Technology revolutionized evaporative drying by producing velocities up to 4x greater than competitive products

- Focused velocities 0 to over 23.5

- FOCUS Technology directs air towards problematic corners (floor), carpet and wall, or subfloors

- Focus corner drying reduces: secondary damage claims, side-effects of trapped humidity like fungi, mildew or structural damage

- 3000 cfm, long-life 2-speed motor

- Low noise, quiet operation

- LLDP - Linear Low-Density Polyethylene housing

- Lightweight and compact

- Washable and chemical resistant

- Stacks easily for storage or transport

- Ergonomic handle

- Colored Restoration Red for high visibility.

Phoenix Axial Focus Fan Air Mover

- Stacks easily for storage or transport
- Ergonomic handle
- Colored Restoration Red for high visibility.
- Circuit breaker protects air mover and attached devices
- Breaker prevents nuisance visits to the junction box
- GFCI protection promotes operator safety in wet applications
- Duplex AC outlet allows inter-connection of up to four axial air movers
- 20 ft AC cord with cord management
