- Six 20 Amp 125V GFCI-protected receptacles
- GFCIs provide open neutral and reverse phasing protection

- Power-on indicator lights on GFCIs
- 220V high voltage shutoff with indicator light
- UL listed for outdoor use
- Designed to withstand tough jobsite conditions
- Meets current OSHA standards
- Dimensions: 17in.L x 24in.W x 12in.H
- Model 8706GU
- U.S.A.

• Note: User assumes all responsibility on use. It is the users responsibility to check the inbound voltage, outbound voltage, and total amp draw to verify these are not going to be overloaded. The user agrees to test the amp draw of any appliance or machine that they plug into these converters to ensure they are not being overloaded. Meters are cheap and mistakes are expensive. You can purchase a meter at <http://www.steam-brite.com/store/voltage-meter-multitester-p-6259.html>

User agrees to hold Steam Brite, its employees, and agents harmless in the event of any use of said use of converter. The user agrees to not hold SteamBrite and all employee against any problems that arise out of the use of said converters. Remember, just because it plugs in does not mean it is OK to use!

Price : \$493.00
