

## Turbo Air Reversible Duct Cleaning System

Model : SBMTurboAir  
Turbo Air Reversible Duct Cleaning System

Manufacturer : Steambrite MFG

[Click here for the Manual.](#)

System works by using supplied air compressor to drive a pneumatic motor at end of the vacuum hose to turn your choice of brushes.

System is controlled by two foot levers that are mounted on a powder coated metal plate that mounts to any rung of any fiberglass or aluminum ladder or can be placed on the floor. Dual foot pedals. One is used for the One/Off and one is for Forward/Reverse.

The system does not require you to stop rotation to change directions. (hands free operation)

The system does not require you to remain stepping on the foot pedal to use the tool. When you depress the peddle the unit stays on even if you remove your foot. To un-lock the cleaning action, just depress the foot pedal again.

This system can be used with any commercial vacuum source. Truckmounted or portable carpet cleaning machine, or any dual motor shop or HEPA vacuum.

System includes:

Jumbo Nylon storage bag 40 X 50" (Color is not guaranteed.)

Reversible air duct motor

35 ft " vacuum hose
