

Limited Warranty Used Equipment

Equipment that has been used and is being resold by Husqvarna Construction Products (HCP) is warranted to be free from manufacturing defects in normal service for the periods specified below. Note that component manufacturers offer separate warranty periods. Call Technical Services at 800-365-5040 for complete information for all products except Partner equipment. Call Technical Services at 888-323-3553 for complete information on Partner equipment.

Our obligation under this warranty is expressly limited to the replacement or repair, at a Husqvarna Construction Products Factory Service Center or Authorized Independent Service Center, of parts that have failed and are determined to be defective after inspection and evaluation.

This warranty does not apply to defects caused by damage, unreasonable use, faulty repairs made by others, or defects caused by failure of the purchaser to provide reasonable maintenance on the equipment. Further, the warranty is void if the equipment, or any of its components, have been altered by the purchaser or if the equipment has been used in a manner not recommended by HCP.

This warranty does not apply to normal wear items including, but not limited to, filters, spark plugs, bearings, belts, wheels and wear pads.

Warranty Periods

"A" Level Used Equipment

These are typically demonstration units with limited usage and are in nearly new condition. These units will carry a full new product warranty, with the exception of component warranties that may have already gone into effect, based on the first use of the equipment.

"B" Level Used Equipment

These are units that have been regularly used for a period of time and have been returned as trade-ins for the purchase of new equipment. These products have been inspected and repaired and are in good working condition. These products are offered with a warranty period that is 50% of the new product warranty period. Again, component warranties will vary based upon when the product was first put into service.

"C" Level Used Equipment

These are products that have been used very extensively and have been returned as trade-ins toward the purchase of new equipment. These units have been inspected and repaired, but show significant signs of heavy use. These products are offered with a warranty period of 30 days and it is unlikely that component warranties will apply.

Please refer to the current catalogs or price books for Dimas, Felker, Partner and Target products for new equipment warranty information.
