

# Stainless Steel Chemical 3-Tier Shelf

from HydraMaster

HydraMaster is proud to announce our new three-tier over the wheel well chemical shelf designed specifically to utilize the additional height of the Ford Transit, Dodge ProMaster, and Nissan CV vans.

- Fits over the wheel well of the new unibody vans
- Takes advantage of higher roofs for more storage space
- Higher bottom shelf allows for spotting kit or tool storage on the van floor below the first shelf

Ford Transit Installation

## Features of the Custom Stainless Steel Chemical 3-Tier Shelf include:

- Manufactured using heavy duty stainless steel for maximum corrosion resistance
- Attaches to both the vans floor and sidewall for maximum stability
- Rounded corners for safety
- Designed to hold up to 8 one gallon containers per shelf (24 Total)
- Each shelf has 4 inch lips to ensure product stays organized and in place
- Shelves are height adjustable to allow for items larger than standard one gallon container
- Can also be used to store tools, brushes and more!

### Ford, Dodge, Nissan Vans:

Part# 000-079-220 (47"w x 48"h x 7"d)
