Clean Storm | 20261119 PROFESSIONAL CLEANING KIT

Air Duct, Dryer Vent & Chimney Cleaning Kit

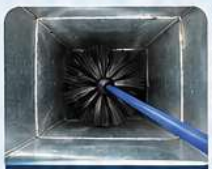

33 Ft (10 Meter) Flexible Cable Drive System with 8 Interchangeable Cleaning Heads

One Professional Cleaning System for Multiple Applications!

The **Clean Storm 20261119** is a versatile, drill-powered rotary cleaning system designed for cleaning HVAC air ducts, dryer vents, chimney flues, and other compatible ductwork.

This complete system includes a 33-foot (10-meter) flexible rotary drive cable, five nylon brushes, and three heavy-duty steel wire cleaning attachments to tackle everything from routine dust removal to more aggressive cleaning applications.

HVAC Air Ducts

Dryer Vents

Chimneys

What Is Included?

1 Flexible Rotary Drive Cable

- **Length:** 10 meters (32.8 ft)
- **Approx. Diameter:** 14 mm
- **Drive Connection:** 1/4" Hex Shank (for electric drill)
- **Brush Connection:** Threaded interchangeable system
- **Construction:** Flexible cable designed to transmit rotary motion through ductwork

2 Five Nylon Cleaning Brushes

Diameter	Color	Suggested Applications
100 mm (3.9")	Blue	Small ducts, narrow openings
300 mm (11.8")	Black	Medium ductwork, general cleaning
400 mm (15.7")	Blue	Medium to large HVAC ducts
500 mm (19.7")	Blue	Larger ductwork and ventilation
600 mm (23.6")	Blue	Large air ducts and ventilation passages

3 Three Steel Wire Cleaning Heads

Diameter	Construction	Suggested Applications
200 mm (7.9")	Steel Wire	Smaller compatible metal passages
400 mm (15.7")	Steel Wire	Medium compatible metal ducts & flues
600 mm (23.6")	Steel Wire	Larger compatible metal ducts & flues

Advantages of the Clean Storm 20261119

- **33-Foot Reach** – Approximately 10 meters of flexible rotary cable.
- **Eight Cleaning Heads** – Five nylon brushes and three steel wire attachments.
- **Drill Powered** – Eliminates the need for a dedicated brush drive motor.
- **Multiple Brush Sizes** – Accommodates a wide variety of duct dimensions.
- **Flexible Drive Cable** – Designed to navigate bends more easily than rigid rods.
- **Interchangeable Attachments** – Change cleaning heads for different applications.
- **Professional Versatility** – Suitable for appropriately trained HVAC, ventilation, and restoration cleaning technicians.

Typical Applications

- **HVAC Air Duct Cleaning**
  Remove accumulated dust and debris from compatible air duct systems.
- **Dryer Vent Cleaning**
  Help loosen accumulated dryer lint from suitable dryer exhaust ductwork.
- **Chimney & Flue Cleaning**
  Steel wire attachments provide additional agitation for certain heavy-duty cleaning applications.
- **Commercial Exhaust & Ventilation Ducts**
  Useful for various compatible commercial ventilation and metal duct applications.

IMPORTANT OPERATING LIMITS

DO NOT USE WHILE COILED UP.

≤ 320 RPM
DO NOT TURN FASTER THAN 320 RPM.

DO NOT SPIN COUNTER CLOCKWISE (REVERSE) AS THE BRUSH ATTACHMENT CAN FALL OFF.

Frequently Asked Questions

Q: Does this cleaning system require a special motor?
A: No. It is designed to be powered by a compatible electric drill (using its hex shank drive). The drill is not included.

Q: Can I use this equipment to clean rectangular air ducts?
A: Yes, it can be used in compatible rectangular ductwork. However, a round brush may not reach every corner. Additional cleaning methods may be required.

Q: Can I spin the brush in reverse?
A: No. Do not spin counter clockwise (reverse) as the brush attachment can fall off.

Q: Can I use the steel wire attachments on any chimney?
A: No. Verify compatibility with the chimney construction and liner material. Aggressive steel wire attachments may damage certain chimney liners and coatings.

Q: Does the kit include a vacuum system?
A: No. This is a rotary brushing system only. A separate suitable vacuum or debris collection system may be required.

Technical Specifications

Brand	Clean Storm®
Model / Part Number	20261119
Product Type	Rotary Duct Cleaning Kit
Drive Cable Length	10 Meters / 32.8 Feet
Approx. Cable Diameter	14 mm
Drive Method	Electric Drill
Nylon Brushes (5)	100, 300, 400, 500, 600 mm
Steel Wire Heads (3)	200, 400, 600 mm
Total Cleaning Attachments	8 (5 Nylon + 3 Steel Wire)
Drill Included	No
Vacuum Included	No

Important Notes

- Inspect the cable and attachments before every use.
- Confirm each attachment is securely installed before operating the drill.
- Use an appropriate drill speed and torque setting (maximum 320 RPM).
- Do not force oversized brushes into undersized ductwork.
- Keep rotating components away from hands, clothing, and loose materials.
- Verify the duct or chimney construction is suitable for the selected attachment.
- Use appropriate dust collection, respiratory protection, and other safety equipment.

Clean Storm 20261119 – One Flexible Drive System, Eight Cleaning Attachments, Multiple Professional Cleaning Applications.
