# HydraDri™

High-Performance Powdered Truckmount Extraction Detergent

HydraDri is an ultra-concentrated, heavy duty extraction detergent especially formulated to work at cleaning temperatures associated with truckmounts and heated portable extractors. HydraDri contains a unique blend of solvents, detergents, and alkaline builders that break down and dissolve the toughest soils, while simultaneously softening the water for a cleaner, fresher, softer feel to the carpet after cleaning.

If for any reason you are not thrilled with the performance of HydraDri return it to your distributor and we'll get you a product that does.

Net Contents:  
40 Pounds (18.143 Kg)

Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in conjunction therewith. The user should thoroughly review the material safety data sheet for this product and follow recommendations for mixing, application, disposal, and the use of any applicable personal protective equipment (PPE). The manufacturer, distributor, and seller of this product warrant that the chemical contained herein conforms to its standard specifications.

The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

HydraDri is an ultra-concentrated, heavy duty extraction detergent especially formulated to work at cleaning temperatures associated with truckmounts and heated portable extractors. HydraDri out-performs competitive products in side by side testing and is economical to use. HydraDri is highly concentrated, with anti-corrosive agents and low foaming properties, which makes it ideal to use in all hot water extraction units. HydraDri is a minimum residue cleaner, which allows for a longer lasting, higher level of appearance between professional cleanings. It contains corrosion inhibitors to protect equipment components and has a non-tacky formulation that keeps the carpet from resoiling faster. HydraDri contains a unique blend of solvents, detergents, and alkaline builders that break down and dissolve the toughest soils, while simultaneously softening the water for a cleaner, fresher, softer feel to the carpet after cleaning. The tropical breeze fragrance leaves the carpet, and the room, refreshed. The extra light flake nature of HydraDri makes it easier to mix, and when used according to directions, the formulation is compatible with warranted residential stain resistant carpets.

**Contents:** Sodium Tripolyphosphate (7758-29-4), Sodium carbonate (497-19-8), Glycol ether PNB (5131-66-8), Glycol ether DPM (34590-94-8), Alcohol ethoxylate (68439-46-3), EDTA Na4 (61-02-8), Sodium metasilicate (6834-92-0), proprietary surfactant, proprietary fragrance, proprietary dye.

### Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Select and apply the appropriate HydraMaster preconditioning pre-spray solution first.
3. For truckmounts, mix 1.5 pounds of HydraDri into 5 gallons of warm water to make a stock solution. For warranted stain resistant carpets, set your solution flow meter from 2 to 3 gph. For heavily-soiled, neglected carpets, set your solution flow meter at 5 gph. For portable extractors, mix 1-2 ounces of HydraDri with 5 gallons of water in your solution tank.
4. Extract carpet thoroughly making sure to slow down in heavy soiled areas and use a dry stroke to dry the carpet faster and return it to service quicker. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the **RX-20 Rotary Extraction Tool**. In furniture dense environments use the **Evolution** cleaning wand.
5. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.
6. Each pound of HydraDri cleans up to 3,500 square feet.

### Instrucciones:

1. Siempre antes de probar todas las soluciones de limpieza en un área oculta la estabilidad del color antes de la aplicación.
2. Seleccionar y aplicar la solución precondicionamiento adecuado HydraMaster prerociado primero.
3. Para truckmounts, mezclar 1,5 # de Hydra-Dri en 5 litros de agua caliente o para hacer una solución stock. Por lo justifiquen alfombras resistentes a las manchas, ponga el medidor de flujo de la solución 2 a 3 gph. Por muy sucias, las alfombras alfombras descuidadas, ajuste el medidor de flujo de solución a 5gph. Para extractores portátiles, mezcle 1-2 onzas de HydraDri con cinco galones de agua en el tanque de solución.
4. Extracto de alfombra a fondo y asegúrese de reducir la velocidad en grandes áreas sucias y utilizar un golpe seco para secar la alfombra más rápido y devolverlo al servicio más rápido. Para una limpieza más rápida, reduce la fatiga y la eliminación de la suciedad más eficaz, se extrae con el RX-20 Herramienta de extracción de Rotary. En muebles ambientes densos utilizar la varita de limpieza Evolution.
5. Para un secado más rápido, especialmente en ambientes húmedos, considerar el uso de un motor axial, el aire centrífugo o de corriente descendente después de la limpieza.
6. Cada libra de Hydra-Dri limpia hasta 3.500 pies cuadrados.

### GHS U.S. – CLASSIFICATION: WARNING

Harmful if swallowed. Causes skin irritation  
Causes serious eye irritation

### PRECAUTIONARY STATEMENTS (GHS-US)

Harmful if swallowed. Causes skin irritation  
Causes serious eye irritation

The product is classified and labeled according to the Globally Harmonized System (GHS)

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Wash skin and contaminated clothing thoroughly after handling. Do not eat, drink or smoke when using this product. Wear suitable protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If skin irritation occurs: Get medical advice/attention.

If eye irritation persists: Get medical advice/attention.

Dispose of contents/container in accordance with local/regional/national/international regulations
