Blitz with GreaseBreaker™

Heavy Duty Powdered Carpet Pre-Spray

Incorporating our famous solvent cleaning booster, **Blitz with GreaseBreaker** goes to work immediately breaking down and dissolving heavy built up oil based soiling. This economical powder pre-spray will melt the grimy soil away right before your eyes.

If for any reason you are not thrilled with the performance of **Blitz with GreaseBreaker** return it to your distributor and we'll get you a product that does.

 400 Pounds (136 Kg)

Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in conjunction therewith. The user should thoroughly review the material safety data sheet for this product and follow recommendations for mixing, application, disposal, and the use of any applicable personal protective equipment (PPE). The manufacturer, distributor, and seller of this product warrant that the chemical contained herein conforms to its standard specifications.

Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

This formula incorporates our famous solvent cleaning booster, **GreaseBreaker**, into a blend of alkaline cleaning agents and builders that quickly dissolves and emulsifies the heaviest of soil. **Blitz with GreaseBreaker** is a non-enzyme mixture so it does not require long dwell times to break down the grimeiest soil. This economical powder prespray will melt the grimy soil away right before your eyes. Being a super concentrate powder, **Blitz with GreaseBreaker** will save you money. It dissolves quickly and easily. The versatility of **Blitz with GreaseBreaker** will allow you to effectively clean trashed and neglected carpets, as well as high soil environments like restaurants and dirty apartments. Since **Blitz with GreaseBreaker** already contains **GreaseBreaker**, no other cleaning additive or booster is needed, even for the most heavily soiled carpets. The fast-acting high pH formula quickly dissolves the heaviest greasy soils. Unlike enzyme pre-sprays that require extended dwell time, **Blitz with GreaseBreaker** goes to work immediately breaking down and dissolving heavy built up oil based soiling. **Blitz with GreaseBreaker** has a pleasant citrus fragrance that leaves a fresh clean smell to the room without being overpowering. It's high powered alkaline RTU pH of 12.0-12.5 means it works well on neglected carpets. It is not designed to be used on well maintained, stain resist warranted carpets. At a use rate of only 2 ounces per gallon of hot water, **Blitz with GreaseBreaker** is economical to use and super-concentrated. **Blitz with GreaseBreaker** contains a perfect balance of surfactants, builders, and solvents for the complete cleaning job. It dissolves quickly and will not clog up sprayers.

- Directions:
1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
 2. For increased efficiency, apply **Blitz with GreaseBreaker** with an injection sprayer to take advantage of solution pressure and heat created by your high performance portable extractor or truckmount. You can also use a "pump-up" pressure sprayer, or electric or battery powered sprayer. Apply in even overlapping patterns
 3. Mix 2 oz. per gallon of hot water for pump-up sprayer. For an in-line injection sprayer, mix 10 oz. of chemical per 5 quarts of hot water. Shake well for complete mixing.
 4. Spray evenly across the carpet. Allow 3-5 minutes for dwell time. Do not allow to dry
 5. Extract with a compatible alkaline extraction detergent or acid/neutralizing rinse. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the **RX-20 Rotary Extraction Tool**. In furniture dense environments use the **Evolution** cleaning wand.
 6. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

Contents: Sodium tripolyphosphate (7758-29-4), sodium carbonate (497-19-8), sodium sulfate (7757-82-6), glycol ether DPM (34590-94-8), Sodium metasilicate (6834-92-0), Tetrasodium EDTA (13235-36-4), d-limonene (5989-27-5); glycol ether PNB (5131-66-8), Proprietary biodegradable surfactants.

- Instrucciones:
1. Siempre antes de probar todas las soluciones de limpieza en un área oculta la estabilidad del color antes de la aplicación.
 2. Para una mayor eficiencia, se aplican Blitz con GreaseBreaker con un pulverizador de inyección para tomar ventaja de presión de la solución y el calor creado por su alto rendimiento portátil extractor o Truckmount. También puede usar una "bomba-up" pulverizador o rociador accionado eléctrica o batería. Aplicar incluso superposición de patrones
 3. Mezcle 2 oz por galón de agua caliente para pulverizador de bomba. Para un pulverizador de inyección en línea, mezclar 10 oz de química por cada 5 litros de agua caliente. Agitar bien para competir mezcla.
 4. Rocíe uniformemente sobre la alfombra. Permita 3-5 minutos para el tiempo de permanencia. No permita que se seque
 5. Extraer con un detergente compatible extracción alcalina o ácido / neutralización de enjuague. Para una limpieza más rápida, reduce la fatiga y la eliminación de la suciedad más eficaz, se extrae con el RX-20 Herramienta de extracción de Rotary. En muebles ambientes densos utilizar la varita de limpieza Evolution.
 6. Para un secado más rápido, especialmente en ambientes húmedos, considerar el uso de un motor axial, el aire centrífugo o de corriente descendente después de la limpieza.

GHS U.S. – CLASSIFICATION: WARNING
 Harmful if swallowed. Causes skin irritation
 Causes serious eye irritation

PRECAUTIONARY STATEMENTS (GHS-US)

If medical advice is needed, have product container or label at hand.
 Keep out of reach of children.
 Read label before use.
 Wash skin and contaminated clothing thoroughly after handling.
 Do not eat, drink or smoke when using this product.
 Wear suitable protective gloves/protective clothing/eye protection/face protection.
 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
 IF ON SKIN: Wash with plenty of soap and water.
 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 If skin irritation occurs: Get medical advice/attention.
 If eye irritation persists: Get medical advice/attention.
 Dispose of contents/container in accordance with local/regional/national/international regulations

OSHA HAZARDS: Target Organ Effect (Glycol Ether DPM)
TARGET ORGANS: Kidney, Liver, Nerves (Glycol Ether DPM).
CLASSIFICATION SYSTEM: NFPA/HMIS Definitions: 0-Least, 1-Slight, 2-Moderate, 3-High, 4-Extreme.
NFPA RATINGS (SCALE 0-4): Health = 2, Fire = 0, Reactivity = 0
HMIS RATINGS (SCALE 0-5): Health = 2, Fire = 0, Reactivity = 0
