

Black Max Floor Machine

- One piece roto-molded polyethylene housing is virtually indestructible
- Full size 17" or 20" pad driver or brush increases productivity
- "No-Riser" design features low center of gravity for improved control and maneuverability
- Torque and vibration absorbing housing improves operator comfort and reduces fatigue
- Low profile design reaches under baseboards and furniture
- Open motor design provides easy access for maintenance
- All metal handle and switchbox assembly withstands years of abuse
- Thumb activated safety switch prevents accidental start-ups
- Backed by an outstanding warranty- Lifetime housing, 5 year motor, 3 year transmission, and 1 year parts and labor

Powr-Flite®

Bonnet Cleaning

Shampooing

Heavy-duty models have all-steel triple planetary transmissions

Scrubbing

The best floor machine in the industry just got better! The all new BlackMax floor machine is the easiest to use and most durable floor machine ever produced. Operators will love its low profile design that easily reaches under baseboards and furniture. They will also notice the low vibration, low torque and easy maneuverability of its revolutionary design. The housing design accepts full size 17" and 20" pad drivers and brushes for increased productivity and cleaning ability. The Powr-Flite BlackMax floor machine takes cleaning comfort, productivity and durability to the max!
