Details

Description

The BRS 43/500 C is the optimal machine for the economical interim cleaning of carpets. It removes the dirt solid and refreshes the carpet. Loose fluff balls and dirt particles are collected in the additional waste container in the same step. The carpet dries up in only 20 minutes and is therefore accessible right after cleaning. Due to the compact design of the machine it is also usable in areas with much public traffic. With an area performance of up to 600 m² the BRS 43/500 C is also appropriate for the fast refreshing of wide areas.

Application

The BRS 43/500 C is especially a suitable machine for contract cleaners, own-cleaners like hotels or salesrooms as well as public principals and congress centres, casinos, etc. It is especially suitable for the use in crowd-pulling locations due to its fast re-accessibility after cleaning. With I-capsol an area performance of 300 m² per hour can easily be performed.

Features & Benefits

Cleaning with low moisture and encapsulated dirt: Incomparable fast. Refreshing and improvement of the overall carpet appearance. Carpet dries in only 20 minutes due to the reduced detergent and water use. Contra-rotating brushes: For an effective cleaning and straightening up of the piles in one step from two directions. The contra rotating brushes straighten up the piles and maintain them while loose dirt is collected in the separate waste container. Compact design: The streamline, compact design of the machine allows easy cleaning of areas with public traffic. Waste container: Loose fluff balls and dirt particles are collected in one step. 7,5 l fresh water tank: Short set-up time and long operation time. Stepless adjustable push handle: Ergonomical in use, space-saving parking position. Clearly arranged operational control: Easy trainable functionalities. Brush change without need of tools: Easy and time saving. Plastic shell for machine storage: Protection of brushes and surfaces. Safety in operation: Easy resettable brush overload.
