

# Hydra-Clean

## Ultra-Concentrated Liquid Carpet Cleaning Extraction Detergent

Hydra-Clean completes the maximum soil removal, minimum residue cleaning process of the professional hot water extraction cleaning, virtually eliminating re-soiling issues common to many carpet cleaning solutions.

Hydra-Clean allows you to use your solution pressure to remove soil that is deeply embedded into the carpet pile with emulsifiers that hold the soil in suspension for easy removal.

- Hydra-Clean is safe to use on all colorfast synthetic carpet, warranted residential stain resistant carpets, and leaves a refreshing scent that says clean without overpowering.
- A gallon of Hydra-Clean is so concentrated it will make 320 gallons or more of ready to use cleaning solution and will clean up to 35,000 square feet of carpet.
- Hydra-Clean is a VOC compliant formula that contains the industry exclusive component Tritanol™ - an integrated blend of specialized encapsulating polymers, organic synthesizers, and surfactants.

### Mixing Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Select and apply the appropriate HydraMaster preconditioning pre-spray solution first.
3. For portable units; mix Hydra-Clean at a rate of 2 oz. per 5 gallons of water. In truckmount units; mix 1 quart of Hydra-Clean with 5 gallons of water to make a concentrated solution. Set your solution flow meter from 2 to 3 gph.
4. Extract carpet thoroughly making sure to slow down in heavy soiled areas and use a dry stroke to dry the carpet faster and return it to service quicker. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the RX-20 Rotary Extraction Tool. In furniture dense environments use the Evolution cleaning wand.
5. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

Available in: 1 Gallon; Case of 4 x 1 Gallon and 5 Gallon Bucket  
Part # 950-110
