## Coffee & Stain Removal Solution

SpotMaster CSR – Coffee and Stain Remover is an effective, easy to mix powdered coffee and mild dye stain remover.

As a modified reducing stain remover, SpotMaster CSR can be used effectively to remove stains caused by coffee, tea, herbal tea, and other tannin stains.

- By keeping it in powdered form, you can mix and activate exactly what you need right on the job site, allowing a freshly mixed solution to go to work to effectively remove stains
- If you are cleaning a carpeted area that has coffee spills spread far and wide, there is no faster or more effective way to eliminate coffee stains
- One 1.25# jar of powder makes almost four gallons of ready to use solution, and the fact that is a concentrated powder makes it easy and inexpensive to ship.

### Directions:

Please read the full label directions before cleaning.

#### For use as a stain removing solution:

1. Pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Carefully mix 2 powder oz. of CSR into 1 qt. of hot water into a trigger sprayer. Read side panel for cautions. Avoid inhaling powder or vapor.
3. Make certain CSR is thoroughly mixed.
4. Saturate spray stained area with mixed solution.
5. Allow 2-5 minutes of dwell time
6. If trace amount of stain remains after drying, repeat application.
7. After stain removal, vacuum or extract textile.
8. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

#### Browning prevention additive for upholstery cleaning:

1. Mix 1 ounce of CSR with each mixed gallon of CleanMaster FabricMaster Fine Fabric Prespray.
2. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness.
3. Proceed to clean upholstery in accordance with industry standards for care.

Available in: 1.25 Pound Jar; Case  
of 12 x 1.25 Pound Jar

Part # 950-244
