

# SpotMaster Pro XP

## SPOTTER

RTU pH 8.0-9.0  
Use Straight - First response professional strength spot remover for synthetic carpet and upholstery

## Extreme Performance First Response Spot & Stain Remover

Cleaning professional's first response solution to a wide variety of common food and beverage spills onto carpet and upholstery.

SpotMaster Pro XP moves to the next step in extreme performance in spot and stain removal for common food and beverage spills, antiseptics, protein stains, ink, lipstick, grease, oil, and tar.

- With the synergistic addition of specialized surfactants, stain eliminators, plant derived solvents, and encapsulating polymers, SpotMaster Pro XP is the next step in extreme performance spot and stain removal.
- SpotMaster Pro XP is the ideal spot remover for most common food and beverage spills. Additives make it a stain eliminator on more problematic stains like iodine and red wine. It is your best response for protein spills and stains like egg, blood, milk and grass stains.
- Encapsulating polymers help prevent wick-back of spots and stains without any additional treatments or steps Uncompromising cleaning power in a VOC compliant formula.

### Directions:

Please read the full label directions before cleaning.

1. Pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Remove any excess contamination before applying spotter. For spilled liquids, blot or extract up. For encrusted materials, use your spotting spatula to remove as much material as possible.
3. Apply SpotMaster Pro XP straight to the spot or stain using your flip top applicator.
4. Agitate solution into the contaminated area with your spotting spatula or tool. Blot up or extract foam that results from agitation or use tamping brush and colorfast towel to absorb as much of the contaminating material as possible.
5. Allow solution to dwell on spot for 2 to 3 minutes.
6. Rinse with water and blot up or extract area thoroughly.
7. If discoloration remains and is solvent soluble, proceed to apply SpotMaster Gel XP according to directions. If the source of stain was from a naturally derived color (organic), apply Knock Out 1 according to directions. If the source of the stain is from a source that had color added (red stains, children's fruit drinks, sports drinks, apply Red Break 1 according to directions.
