

Focus II Rider How To

Prepare for Use

1	 Check batteries, turn on switch to check battery indicator (battery fully charged). 	2	 Select proper brush, inspect then Install brush (Disc System) under scrub deck. Align brush gimbal (push until it locks).	3	 Install pad (Boost System) by first removing the side skirt. Line up pad with the fixed pad drive then press into place.
4	 Install rear squeegee. Do not over tighten. Connect the recovery hose to the squeegee inlet.	5	 Make sure ball float system and debris catch cage is clean.	6	 Fill with water (Below 130 °F); add detergent (follow dilution ration).

Machine Operation

1	 Familiarize yourself with the control panel and all of its functions for scrubbing and transporting.	2	 Press the Solution Control and Scrub switch. Adjust the Solution Control as needed.	3	 Begin scrubbing process.
