

KÄRCHER

makes a difference

RUGGED AND POWERFUL COLD WATER CLEANING.

Roll cage, gas/diesel-powered, cold water pressure washers.

PROFESSIONAL | BR SHARK SERIES AND D CAGE

BR SHARK SERIES AND D CAGE

Extra rugged and powerful.

Our roll cage models are the most powerful units in our cold water line, with cleaning power of up to 5000 PSI. Protected by either a rugged powder coated roll cage built of 1-1/4" steel or a corrosion-resistant stainless steel cage, these units feature powerful Vanguard, Honda or Kohler engines, tri-plunger oil bath Kärcher pumps, flat-free tires, and an extra rugged belt-drive assembly with notched V belts and cast iron pulleys.

1 Powerful and durable

- Safety thermal pump saver valve protects against hot-water damage by venting recirculated water.
- Rugged roll cage and chassis made of 1 1/4-inch steel and powder coated with an epoxy finish for all-weather protection for BR models.
- Corrosion-resistant stainless steel frame for D cage model only.
- Reliable Honda, Vanguard or new Kohler engine - model HD 3.4/30 D Cage (Shown above)
- Industrial-grade, tri-plunger, oil-bath Kärcher high pressure pump with forged brass head and ceramic pistons; backed by 7-year warranty.
- Notched V-belts and cast-iron pulleys reduce belt slippage and provide longer pump life.
- 50' durable wire-braid hose rated for 3000 or 5000 PSI; with hose guard for burst protection
- Inlet strainer protects pump from debris in the water source.

2 Smart features

- Five conveniently mounted, quick-couple spray nozzles for varying fan spray.
- Totally enclosed, OSHA-compliant, high-impact polyethylene belt guard and easy-to-adjust belt tension device.
- Insulated, high-pressure trigger gun for hours of fatigue-free cleaning.

3 Outstanding mobility

- Heavy-duty lifting beam for ease in loading and transporting.
- Flat-free tires on all models for easy maneuvering on any surface, especially surfaces with nails and sharp debris.

TECHNICAL DATA AND EQUIPMENT

Features

- Belt-drive
- Rugged steel chassis & roll cage
- Honda, Vanguard or new Kohler engine - model HD 3.4/30 D Cage
- Cleaning power up to 5000 PSI
- Electric start on dual-axle models*
- Industrial crankcase pump with U-Seal technology
- Flat-free tires
