

Canister Vacuums

The first truly comfortable canister vac

Designed by backpackers, the Clarke® Comfort Pak Backpack Vacuum is the first truly comfortable canister vacuum.

Padded shoulder straps and innovative lumbar support ensure comfortable stability, distributing the weight over the hip like a well-designed backpack. It's also stable and lightweight with an ergonomically designed frame, allowing easy maneuverability around furniture and obstacles.

Proven superior by independent testing

The Sweden-based Tva Ergonomer Testing and Ergonomic Consultancy Bureau compared Clarke® Comfort Pak Backpack Vacuum Cleaners to three other leading brands of backpack vacuums. The bureau concluded that the Comfort Pak rated “better than rival backpack vacuums on all design criteria.” This ergonomic evaluation also noted the importance of the Comfort Pak’s light weight and overall harness design in minimizing stress and strain on the body.

- Innovative filter bag closure system makes changing bags easy and mess-free
- Quiet, 62 dB A sound level is quieter than most competitors
- 6- or 10-quart capacity matches operator size and strength
- 4-stage filtration, HEPA optional, minimizes dust
- Swivel hose allows left or right hand operation for easy versatility
- Unique harness design lets cool air move around operators back, enhancing comfort
- Green Label approved by CRI + Carpet & Rug Institute Seal of Approval

• Standard equipment
