

# HydraCradle

## **MAXXSPACE™** Freshwater Tank/Electric Hose Reel Combo

Maximize space in your van, improve your productivity, store and easily retrieve your hose, and have freshwater available at all times. With 125 gallons of freshwater instantly available, every job will be hassle-free. The durable, roto-molded rust resistant hose reels hold up to 200' of vacuum and solution (pressure) hose with options to customize and expand your capacity. The live and electric vacuum hose reel provides for powered

retraction (via a convenient footswitch) to reduce fatigue and time spent "tearing" down on the job site. The frame is constructed of high quality powder coated steel to reduce rust and corrosion. The Inlet water pump has up to 4.5 gpm capacity to continuously feed to the solution pump on your truckmount. Finally, the HydraCradle is also equipped with a convenient mounting station for your in-line injection sprayer.

### HydraCradle

Part# 000-163-600
