| › Cable: | 8.5m |
| › 2 brush system | |
| › Brush revolutions: | 400rpm |

PRODUCT FEATURES

- › No long "area out of use" periods
- › No shrinking
- › No detergent residue
- › Anti bacterial properties
- › Alleviates dust allergies
- › Massaging brush roller for deep fibre cleaning
- › WOOLSAFE approved

HOW DOES IT WORK?

The SEBO duo-P Carpet Cleaning Powder consists of thousands of micro-sponges which contain a safe and environmentally friendly solvent for greasy soiling, a neutral shampoo for non-greasy soiling and an anti resoilant to delay re-soiling. When worked into the carpet fibre, soil and stains are lifted out of the carpet by the duo-P powder. The Duo Applicator lifts the carpet pile ensuring all surfaces of the carpet fibre are cleaned; leaving your carpet revived and softer.

After vacuuming with your SEBO Upright Vacuum Cleaner your carpet is clean, dry and ready for immediate use.

An added advantage in using the duo-P Cleaning Powder on your carpet is its anti-bacterial properties and is proven to eradicate dust mites.

SEBO OFFER A COMPLETE CARPET CARE SOLUTION.

The SEBO Vacuum Cleaners remove loose and dry matter. For soiling and stains, we provide the SEBO Duo system. Cleaning without using water, it is effective and avoids wet cleaning problems such as carpet shrinkage, adhesive damage, smell and long 'area out of use' periods due to lengthy drying times.

The Duo system comprises a brushing machine, the Duo Applicator, and carpet cleaning powder, duo-P. The Duo Applicator features twin contra-rotating brushes which open up the carpet pile and work the duo-P carpet cleaning powder deep into the pile and around every fibre.

With the dopple, two standard duo machines can be linked together to create a 70cm (28") Applicator for cleaning larger areas.

ALLERGY RESEARCH

The GAF Allergy Research Centre in Germany found in a long term test that, six months after a single cleaning with duo-P, seven out of ten carpets remained free of dust mite allergens.

This is a DRY carpet cleaning process. The SEBO duo-P Cleaning Powder WILL NOT PROMOTE THE GROWTH OF MOULD AND FUNGI in your carpet and underlay that wet extraction systems may cause.

SEBO CLEAN BOX - THE IDEAL SPOT CLEANER, ALL YOU NEED TO DO IS:

1. Spread a small amount of duo-P powder onto the soiled area

2. Gently work the powder into the carpet using the brush provided within the lid of the SEBO Clean Box

4. For larger areas use the Applicator. Leave it to do its work approximately 30mins. Then vacuum away with a SEBO Upright Vacuum Cleaner.
