

Husqvarna LG 400

LG 400 is a powerful, reliable reversible plate compactor, developed for efficient compaction of deep and medium-deep granular soil. It makes an effective alternative/complement to rollers when compacting in confined areas. It is equipped with a Honda GX390 petrol engine and features an ergonomic, service-friendly design.

Ergonomics and efficiency

The vibration damping handle allows you to work efficiently for hours.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel. The special design keeps rocks from getting stuck between the plate and frame.

Easy operation

The forward/reverse lever and fixed handle grip make handling easy on all surfaces. You don't have to push/pull constantly during operation.

FEATURES

- Plates made to last
- Strong protection, easy transportation
- Ergonomics and efficiency
- Easy operation

Technical Specifications

ENGINE

Motor/engine model	4-stroke air-cooled
Exhaust emissions (CO2 EU V)	743 g/kWh

SPECIFICATIONS

Speed forward max	0.93 mph
Speed	25 m/min
Starter	Recoil

DIMENSIONS

Plate width	650 mm
Weight	877 lbs

SOUND AND NOISE

Sound power level, guaranteed (LWA)	107 dB(A)
Sound pressure level at operators ear	90 dB(A)

PACKAGING

Packaging length	1200 mm
Packaging width	800 mm
Packaging height	1550 mm
Packaging volume	1488 dm ³
