

# Husqvarna LG 504

LG 504 is a powerful, reliable reversible plate compactor to efficiently compact deep and medium-deep granular soil. It makes an effective alternative/complement to rollers when compacting in confined areas. It is equipped with a Hatz 1D81Z diesel engine and features an ergonomic, service-friendly design.

### Know when you're done

The compaction indicator tells you when the ground is ideally compacted and when to move on to the next task, saving you time and money.

### Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

### Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel. The special design keeps rocks from getting stuck between the plate and frame.

### Ergonomics and efficiency

The vibration damping handle allows you to work efficiently for hours.

## FEATURES

- Plates made to last
- Strong protection, easy transportation
- Know when you're done
- Ergonomics and efficiency
- Easy operation

### Technical Specifications

ENGINE	
Motor/engine model	4-stroke air-cooled
Power output	14.1 hp
Power/fuel type	Diesel
SPECIFICATIONS	
Speed forward max	1.2 mph
Speed	32 m/min
DIMENSIONS	
Plate width	850 mm
Weight	1124 lbs
PACKAGING	
Packaging length	1669 mm
Packaging width	846 mm
Packaging height	1202 mm
