

Tradewind™

This innovative new airmover design produces up to 3000 CFM, while drawing only 2 amps of power. The 16" axial fan blade has a metal hub for increased durability and lifespan.

The blower can also be equipped with an optional transport handle and caster package to allow "center of the room" drying by placing the fan vertical to the carpet surface. The units are stackable for storage, and feature an on-board cord wrap.

Features

- 3000 CFM
- Low amp draw
- Built in cord wrap and carry handle
- Stackable to 5 high for storage and transport

Benefits

- Can be used for carpet drying, or for water damage restoration
- Optional casters allow "center of the room" carpet drying
- Optional luggage handle allows easy transport
- Optional stand allows drying in multiple positions

When Quality Counts, Count on Mytee!
