Description
SPECIAL ORDER
Stream job-site data easily with the Phoenix DryPHONE.
DryPHONE makes keeping track of your DryLINK products easy. It integrates seamlessly with the Phoenix DryLINK ecosystem using the DryLINK App to automatically upload data from drying jobs to the cloud quickly, leaving you more time to do the job.
With the included smartphone app, you can get job status alerts instantly, track performance, and make adjustments on the go.
Features
Access-from-anywhere convenience

- Real-time alerts of your choice
- Instant atmospheric and moisture readings
- Case, activation fee and monthly data plan of 600 MBs for one full year
- Enter daily readings remotely
- Allows you to plan your daily visits based on actual conditions

THE ONLY APPROVED DEVICE TO PROVIDE REMOTE MONITORING TO ALL OF YOUR DRYLINK ENABLED DEVICES
Our DryPHONE technology automatically uploads data from drying jobs to the cloud.
ALERTS TO HELP YOU KEEP UP WITH WHAT'S HAPPENING ON THE JOB SITE
Alerts include: when a goal has been reached, chamber temperature is out of range, chamber RH is out of range, chamber GPP not decreasing, equipment turned on or off, last known location of the unit, battery replacement needed, the filter needs to be changed, job started or ended, and job not completed on time.
INTEGRATES SEAMLESSLY WITH PHOENIX DRYLINK APP
The DryPHONE comes pre-programmed with the Phoenix DryLINK app, allowing you to keep track of your projects with ease.
WORRY LESS WITH DRYLINK TECHNOLOGY
Our DryPHONE is designed to be left on a job for remote monitoring and instant notifications.
KEEP WORK SEPARATE FROM PERSONAL LIFE
The DryPHONE allows you to keep work separate from your personal phone.
