Lighted Power Cords
Lighted power cords indicator plug glows when the cord has power.

Cuff-Lynx™ Ready
Cuff-Lynx™ provide an easy connection for vacuum hoses.

NOTE: Rotary power wands work best with auto fill and auto drain portable machines and truckmounts because they use twice as much water per minute and you do not want to waste time filling and emptying your machine. When used with a portable, it is best if used with one that offers more vacuum than the average machine. This would allow you to run longer hose runs without moving the machine very often.

Questions and Answers on Bundle 20240926
Q. How hot can the water get?
A. Only as hot as you get out of the sink, shower head, or washing machine hose connection. This system does not offer any additional heater but you can purchase a stand alone heater.

Q. What is the package advantages and disadvantages over some other systems?
A. This package will let you pre-spray about 10 times faster than a pump up sprayer followed by letting you agitate and rinse, extract at the same time by use the Trex JR wand. This package includes dual 50 ft power cords so it is always easy to find 2 breakers. This package includes the speed crevice tool that lets you finish the job by picking up pet hair balls and dirt that is all around the perimeter. This package includes 50 ft of hoses which is 100% longer than other packages on the market so you spend less time relocating your machine. The advantage of this system is the

machine it is auto fill and auto dump. The ultimate system would let you have more vacuum to run longer hoses, wider Trex 15 wand (rinse 23% faster), more heat, with more vacuum and auto fill and dump. You would have to spend about double this package price though. Another advantage is the weight of the equipment is less and it is much easier to get in and out of a service van/trailer. Having the 500psi water pump outside the machine is a real advantage.

Q. What is the maximum cleaning distance with this system?
A. Only 75 ft. This machine will clean out 150 ft with 2” id vacuum hose and a standard 12” wide 2 jet wand but this is not a standard wand and it is using 1.5” ID vacuum hose.
