Esteam NJA200-10 Ninja Classic 10gal 200psi Pump HEATED Portable Carpet Extractor Mytee Trex Jr Chemicals Sprayer 20241008

Manufacturer: Esteam Cleaning Systems

Esteam NJA200-10 Ninja Classic Heated 200 PSI Portable Carpet Cleaning Business Package with Mytee T-REX Jr, Chemicals & Sprayer Bundle Package #20241008

This premium carpet cleaning starter package combines the proven Esteam Ninja Classic heated 200 PSI portable extractor with the Mytee T-REX Jr rotary extractor, carpet cleaning chemicals, and sprayer. This bundle is designed for professional carpet cleaners, apartment maintenance companies, janitorial contractors, auto detailers, and new carpet cleaning businesses that want better production and agitation than a standard wand-only setup.

Why This Package Is Different

- Includes a heated 200 PSI commercial portable extractor
- Includes the Mytee T-REX Jr rotary extraction tool for faster carpet agitation and flushing
- Starter chemicals and sprayer help reduce first-order setup mistakes
- Excellent package for residential carpet, apartments, rentals, offices, and maintenance cleaning
- Dual vacuum motors provide strong water recovery
- 200 PSI pump is ideal for carpet, upholstery, and general textile cleaning
- More productive than wand-only cleaning on many open carpet areas

What Is Included?

- Esteam Ninja Classic NJA200-10 heated portable carpet extractor
- Mytee T-REX Jr rotary carpet extraction tool
- Vacuum hose assembly
- High-pressure solution hose
- Carpet cleaning starter chemicals
- Sprayer for prespray application
- Owner's manuals and setup documentation

Note: Exact chemical brands, sprayer style, hose colors, and accessory appearance may vary depending on current warehouse inventory and factory availability.

Esteam Ninja Classic Extractor Features

- 10 gallon solution tank
- 10 gallon recovery tank
- 200 PSI pump
- Dual 2-stage vacuum motors
- Internal heater
- Rotomolded polyethylene body
- Quick latch body design for easier service access
- Large rear wheels and front swivel casters

>

Mytee T-REX Jr Advantages

- 12 inch rotary extraction cleaning path
- Four vacuum slots for improved recovery
- Four solution jets for even flushing
- Adjustable 80 to 180 RPM cleaning speed
- Carpet brushes provide added agitation
- Up to 720 cleaning passes per minute
- Excellent for open carpet areas, apartments, rentals, and traffic lanes

The Mytee T-REX Jr is not just a wand. It is a powered rotary extraction tool that scrubs, rinses, and extracts in one process. This can help improve cleaning consistency and reduce operator fatigue on many jobs.

Recommended Applications

Application
Performance
Notes

Residential carpet cleaning
Excellent
Use wand for edges and T-REX Jr for open areas

Apartment turn cleaning
Excellent
Great for repeat production work

Commercial glue-down carpet
Good
Use proper chemicals and controlled moisture

Upholstery cleaning
Good
Optional upholstery tool recommended

Auto detailing
Good
Use optional detail upholstery tool

Tile and grout cleaning
Limited

>

Higher PSI equipment is normally preferred

Why Add a Rotary Extractor?

A standard carpet wand depends heavily on operator technique. The Mytee T-REX Jr adds powered rotary agitation and repeated cleaning passes, helping the operator scrub, flush, and recover soil more consistently. This is especially helpful for traffic lanes, rental properties, apartments, and heavily used residential carpet.

Electrical Requirements

The Esteam Ninja heated extractor and Mytee T-REX Jr each require proper 115 volt grounded power. The heated extractor should be operated on separate properly grounded circuits when using multiple power cords. Using too many devices on the same breaker may trip the circuit.

Important Operating Tips

- Vacuum carpet thoroughly before wet cleaning.
- Apply prespray and allow proper dwell time.
- Use the T-REX Jr in open areas and a wand or hand tool for edges and tight areas.
- Use defoamer in the recovery tank when needed.
- Flush the pump, heater, hoses, and tools with clean water after chemical use.
- Keep vacuum filters, screens, and jets clean for maximum performance.

Top 5 Mistakes New Operators Make

- Running all cords on one electrical breaker
- Skipping vacuuming before extraction
- Using too much chemical and causing foam in the recovery tank
- Moving the rotary extractor too fast and reducing dwell/contact time
- Failing to rinse and clean the machine after each job

Package Comparison

Package Type
Best For
Limitations

Machine Only
Customers who already own hoses and tools
Requires accessory matching

Extractor with Wand and Hoses
Basic startup cleaning
More operator fatigue on larger jobs

>

This Ninja + T-REX Jr Package
More complete startup business package
Higher initial investment

Truckmount System
High-volume professional cleaning
Much higher cost and vehicle dependency

Frequently Asked Questions

Is this a complete carpet cleaning business starter package?

Yes. This package includes the extractor, Mytee T-REX Jr rotary tool, hoses, chemicals, and sprayer. Optional items such as air movers, upholstery tools, spotting kits, defoamer, and corner guards may still be added depending on your business needs.

Is 200 PSI enough for the T-REX Jr?

Yes. The T-REX Jr can be used with many portable extractors. A 200 PSI heated extractor is a strong fit for carpet cleaning, apartments, and residential work.

Does the Ninja make steam?

No. This is a heated hot-water extractor, not a true steam generator. The heater improves cleaning temperature but should not be advertised as a steam cleaner.

Can I clean upholstery with this package?

Yes, but an optional upholstery hand tool is recommended for proper control and reduced overspray.

Can I use this on stairs?

Yes. Use a stair tool, upholstery tool, or wand depending on stair design. The T-REX Jr is best for open carpet areas, not tight stairs.

Can this replace a truckmount?

For many residential, apartment, and janitorial jobs, this package can perform very well. Truckmounts still offer higher heat, vacuum, and production for high-volume professional routes.

Shipping Notice

This package may ship by freight carrier and/or multiple boxes. Commercial delivery with a forklift or loading dock is preferred. Residential delivery, liftgate service, limited-access delivery, and appointment delivery may require extra freight charges.

Questions and Answers:

Q. Why do customers pick this Ninja body style over the carpet cleaning body styles?

A. This machine is one of the lightest weighted machines that is 200 psi, dual 2 stage vacuum, with a heater installed. While the majority of the weight of a carpet cleaning machine is made up of the internal guts that are installed under the hood. The total internal componets weight is always the same among all brands and body styles. The difference is in the body of the plastic. This design is lighter weight with smaller wheels and casters. This is currently the oldest body stile in production today. This body was released to the carpet cleaning market in the mid 1980's, while the 2nd oldest body stile that is still on the market today is the Mytee 1003DX released around 1993. This makes the Ninja Classic almost a proven track record a full decade ahead of 2nd place. People historically purchased this body style for ease of lifting in and out of the service vehicle or for stair case travel. Also wired to run on dual 15 amp breakers. Wired so the cleaning machine is 15 amps and then the heater is 15 amps on the 2nd cord.
