Clean Storm 21240831 Pre-Separator 2In Inlet Keep Hepa Filters Cleaner Longer

Designed to MAXIMIZE Efficiency, Minimize Cost Each Clean Storm 21240831 Pre-Separator works between the floor grinder (or shot blaster, scarifier, saw, milling machine, etc), leaf / gutter cleaner and the vacuum to catch up to 90% of the dust, debris, and trash

Makes You MONEY!

* Vacuum Filters stay clean, reducing the need to clean or replace.

* Enables you to keep the grinder running all the time, instead of stopping to empty the vacuum and clean the filters (simply turn off the vacuum for a few seconds, let the trash / dust drop into the pre-separator bag, then turn the vacuum back on and get back to work!)

* Saves time spent cleaning filters

* Saves money spent replacing filters

* Keeps your grinder working full time

More portable than other types pre-separators:

Stair climbing rear wheels (units to right do not)

Light weight aluminum construction (steel units to the right are 49 lbs, Clean Storm unit is 27 lbs)

Uses standard contractor bags instead of Longopacs!

When your dust extractor is prematurely clogging due to large quantities of material, consider the Clean Storm 202408231 pre-separator. It captures 90% of the material before it reaches the dust extractor, keeping your dust extractor filters clean and extending your grinding operation longer without interruption. Accepts traditional 3 mil contractor bags.
