Manufacturer: Husqvarna Equipment

Husqvarna 586255901 Blade Shaft Bolt LH 5/8-11 x 4.25 for FS 3500 FS 5000 FS 7000 Concrete Saws
OEM Husqvarna Left Hand Thread Blade Shaft Arbor Bolt
The Husqvarna 586255901 Blade Shaft Bolt is a genuine OEM replacement arbor bolt designed for heavy-duty walk-behind concrete saws including the Husqvarna FS 3500, FS 5000, and FS 7000 series. This left-hand thread (LH) hex head cap screw secures the cutting blade assembly to the blade shaft and is engineered to withstand the extreme vibration and torque loads produced during asphalt and concrete cutting operations.
Using the correct OEM arbor bolt is critical for operator safety, proper blade retention, and preventing costly spindle damage. Inferior aftermarket bolts may stretch, loosen, or fail under load.
Key Features

- Genuine OEM Husqvarna replacement part
- Part Number: 586255901
- Left Hand Thread (LH)
- Size: 5/8-11 x 4.25
- Heavy-duty SAE grade construction
- Designed for high vibration concrete saw applications
- Used on 14 inch through 36 inch blade saw systems
- Helps maintain proper blade retention and shaft alignment

Compatible Husqvarna Concrete Saws

Model	Application
FS 3500	Walk-behind concrete saw
FS 5000

Heavy-duty floor saw

FS 7000
High production concrete saw

Why Replace the Blade Shaft Bolt?
Blade shaft bolts experience repeated heat cycles, shock loading, and vibration during cutting operations. Over time bolts can:

- Stretch from repeated torque cycles
- Develop thread wear
- Corrode from slurry and moisture exposure
- Lose proper clamping force
- Cause blade wobble or flange wear

Replacing worn arbor hardware during blade changes helps prevent expensive spindle and blade flange damage.
Important Installation Notes

- This is a LEFT HAND THREAD bolt
- Always inspect blade flanges during replacement
- Verify proper torque specifications per Husqvarna service manual
- Never use impact tools without confirming correct thread direction
- Inspect shaft threads for wear before installation

Technical Specifications

Manufacturer
Husqvarna

Part Number
586255901

Thread Size
5/8-11

- Arbor washers and spacers

Frequently Asked Questions
Is this an OEM Husqvarna part?
Yes. This is a genuine OEM Husqvarna replacement component.
Does this use left hand threads?
Yes. This blade shaft bolt uses LEFT HAND threads.
Will this fit all FS5000 saws?
It fits many FS 5000 series saws, but always verify your model and serial number before ordering.
Why are left hand threads used?
Left hand threads help prevent the arbor bolt from loosening during normal blade
