Manufacturer: BE Pressure Supply

BE Pressure Washer Surface Cleaning Spinner Wand 20 Inch With Casters 85.403.011

One of the best attachments for a pressure washer to clean large flat surfaces. The two rapidly spinning jets create a large, streak-free cleaned path greatly reducing the time and effort needed for projects such as parking lots, driveways and sidewalks.

Ergonomic twin handles with built-in trigger makes it easy to operate and maneuver.

Four swivel casters allow the whirl-a-way to glide over flat surfaces maintaining a consistent height for the spray nozzles to be as effective as possible.

Bristle skirt keeps debris and overspray contained.

Quick connect fitting in the end of the trigger gun quickly connects to the high-pressure hose.

ABS Polymer housing resists impacts, protects the rotary arms and keeps weight minimal.
For use with hot tap water up to 180 degrees F.

The actual product may vary from the images shown on the website.
