AR Pump XMV3G30D-M Pump: 3/3000 3400RPM

Manufacturer: Annovi Reverberi Pumps

AR Pump XMV3G30D-M Pump: 3/3000 3400RPM
Description
Experience superior pumping power with the Annovi Reverberi Plunger Pump. The XMV3G30D-M model is a hardworking, high-performance solution designed for a versatile range of applications. This pump can effortlessly handle demanding tasks from domestic pressure washing to heavy-duty commercial usage, proving to be an excellent piece of equipment for professional cleaning services, homeowners, and industrious DIY enthusiasts.
A premium feature of the AR Plunger Pump is its impressive 3 GPM flow rate and a maximum pressure delivery of 3000 PSI. The solid shaft of the pump runs at 3400 revolutions per minute (RPM), offering optimal performance and rapid water transmission. With its robust construction, this pump guarantees a steady operation and long-term durability, exceptional features that makes it a reliable choice for various high-pressure cleaning tasks.

Features

- Applications: Suitable for domestic pressure washing, commercial cleaning services, and high-pressure washing tasks in industrial settings.
- Flow Rate: Offers an impressive 3 GPM (Gallons Per Minute).
- Pressure: Delivers a maximum pressure of 3000 PSI (Pounds per Square Inch).
- RPM: Operates at 3400 revolutions per minute for optimal performance and rapid water transmission.
- Durability: Its robust construction ensures steady operation and long-term durability, making it a reliable choice for various high-pressure cleaning tasks.
