AR Pump XMVSS35G25E-F33 Pump: 3.5/2500 3400RPM 5/8" Shaft Description

Dependable, durable, and tough, the Annovi Reverberi Plunger Pump XMVSS35G25E-F33 is designed to handle all your high pressure needs. Delivering a powerful 3.5 GPM at 2500 PSI, this pump is perfect for both commercial and residential use. From pressure washing your home's exterior to industrial cleaning, this pump has you covered. Its superior performance at a maximum of 3400 RPM solidifies its place as a reliable tool.

Performance aside, comfort and user-friendly design are integral parts of this product. It contains a high-strength forged brass manifold for long term use. It's an investment that ensures the best in quality and service life. Suitable in an array of settings, it stands out for its adaptability and effectiveness.

Features

- Operates at maximum of 3.5 Gallons Per Minute (GPM).
- Generates upto 2500 Pounds per Square Inch (PSI) of pressure.
- Can reach a maximum speed of 3400 Revolutions Per Minute (RPM).
- Features a high-strength, forged brass manifold, increasing its lifespan.
- Flexible for use in both commercial and residential settings.
