Manufacturer: Annovi Reverberi Pumps

AR Pump XTA3G16N/ET Pump/Motor: 3/1600 1750 rpm
Description
The Annovi Reverberi (AR) XTA3G16N/ET 1750 RPM Plunger Pump stands tall as a high-performance, durable solution for both professional use and DIY projects alike. Ticking the right boxes for a vast variety of applications, this robust and versatile pump is a testament to AR's long-standing reputation for quality and reliability. Whether you are involved in residential cleaning, surface preparation, or maintenance of commercial machinery, this high-end pump is designed to deliver consistent performance. Specialized car wash services can also reap tremendous benefits from its high-pressure capabilities. Agricultural sectors require equipment that can withstand demanding environments; this plunger pump caters to such needs by ensuring smooth operations for irrigation and pest control activities.

- Power: Offers operational speed of 1750 RPM
- Efficiency: Delivers 3.2 GPM (Gallons Per Minute) for optimal cleaning results
- High Pressure: Produces a pressure of 2200 PSI (Pounds per Square Inch)
- Durability: Designed to withstand extended usage with its die-cast body and solid ceramic plungers
- Compatibility: Features compatibility with both electric and gas motors
