AR Pump XTA3G19E-F8 Pump: 3/1900 1750RPM

Model Number: XTA3G19E-F8

AR Pump XTA3G19E-F8 Pump: 3/1900 1750RPM

Manufacturer: Annovi Reverberi Pumps

AR Pump XTA3G19E-F8 Pump: 3/1900 1750RPM
Description
Annovi Reverberi pumps are a combination of exceptional degree of technology and innovation. They deliver quality and reliability worthy of a leading brand on the market. The wide range of AR pumps includes many models which vary in terms of pressure, delivery, power and technical characteristics, to satisfy widely different market demands.

Plunger pumps are designed for a wide variety of moderate pressure washing applications. They are constructed with die-cast bodies and feature a brass head. Internal components include special thick solid ceramic plungers for long life and durability.

The XTA series pumps feature precision cast cooling fins that are anodized for maximum heat dissipation. The oversized needle bearing on the drive side and ball bearings on the non-drive side assure proper shaft alignment and maximum life. Valve cages of special design are impervious to water absorption and provide positive seating and extended life.

Features and Specifications
• Triplex plunger pump
• Direct drive with electric flange NEMA 56C
• Maximum volume: 3.0 GPM
• Maximum discharge pressure: 1,900 PSI
• Maximum pump speed: 1750 RPM
• Shaft diameter: 5/8” hollow
• Minimum horsepower requirements: 4.0 BHP
• Maximum fluid temperature: 160°F.
• Inlet ports (2): 1/2" BSP
• Discharge ports (2): 3/8" BSP
• Drive side: Standard right
• Forged brass head and valve covers
• Solid ceramic plungers
• Weight: 11.0 lb.
