RHG 10041-110v-SS Tucker 3 Stage Electric Powered 110V Booster Pump H2PRO RO/DI Cart Water Purification System

Model Number: 10041-110v-SS

RHG 10041-110v-SS Tucker 3 Stage Electric Powered 110V Booster Pump H2PRO RO/DI Cart Water Purification System

Manufacturer: RHG Reach Higher Ground

Tucker 3 Stage Electric Powered 110V Booster Pump H2PRO RO/DI Cart Water Purification System

Tucker is the #1 Brand for water-fed cleaning equipment in the world, since 1957. All Tucker products are built in North America with only the best materials, design, and quality controls in the market... and our ten year warranty will prove that and show that we stand behind our quality!
Are you a professional system that is designed for increased water flow, running multiple poles, or for jobs requiring high water production? This is the system for you! On average this system can easily reach 60-70 feet on standard pressure.

The Tucker® H2Pro 3-Stage Water System
If you are considering a purification system that is capable of running multiple poles or for high water production in solar panel cleaning applications the H2pro is an excellent choice. These systems are work horses from day one, proven by over 10 years of sales and reliability in the field. Comes with the built in Tucker® DI saver option that allows you to bypass the DI filter and work with pure RO water in various application, lowering your cost of maintenance considerably.

Key Features:

- 2+ GPM 110v booster pump
- Built in On/off switch
- Tucker® DI SAVER MODE (RO Only) and RO/DI modes for different cleaning applications
- 30" carbon pre-filter for long filter life
- 40" eco flow Tucker® RO membranes for high water production
- 30" DI post-filter for final polish of the RO water.
- No flat wheels
- Stainless steel housings
- 2 year warranty

Specs:
Width: 16" Length:18" (at base) Height: 51" Weight: 106lbs

How the System Works:
This system uses 3 levels of filtration for the best and most economical solution available:

Stage 1: is the Carbon Filter which removes the Chlorine and other chemicals

RHG 10041-110v-SS Tucker 3 Stage Electric Powered 110V Booster Pump H2PRO RO/DI Cart Water Purification System

Stage 2: which is the Reverse Osmosis (RO) which removes 90% of the Total Dissolved Solids (TDS)
Stage 3: the final stage, Deionization (DI) Filter which polishes the water and brings the TDS level down to or close to 0

This process gives you 100% pure water for cleaning and rinsing without spotting and provides that level for a much longer time before any filters are required to change.

Replacement Filters:
Search these product codes to find the exact replacement filters for your system

Empty Refillable Filter (no DI resin inside): 20066
DI Resin Post-Filter: 20066-DI
Carbon Pre-Filter: 20066-C
RO Membrane Filter: 20013-RO-VF
Bulk DI Resin: 20007.5
