Model Number: HP60-D

Mytee HP60-D, DEMO Spyder 6gal 120psi HEAT 3Stage Vacuum, 15Ft hose set, spray tool Auto Detail Machine, 814338023392

Manufacturer: Mytee Products

The HP60 DEMO Spyder® Automotive Detail Extractor puts the "Mobile" in Mobile Detailing.

Good things come in small packages. An example is the HP60 Spyder® automotive detail extractor. Basically, a smaller version of Mytee's® HP100 Grand Prix®. While the Grand Prix® features two 10-gallon capacity tanks, the Spyder® contains two 5-gallon tanks. But do not be fooled by its size. Built smaller for your convenience, the HP60 Spyder® has the same amount of cleaning power and detailing ability as its large sibling.

The design of both units transformed the auto detailing industry and has been copied by companies throughout the world. When our automotive extractors debuted in 1997, Mytee® offered the first heated extractor with a single power cord. Previously, extractors that used a pump, vacuum and heater required two power cords, making it hard to find a power source. But Mytee's® trailblazing design changed all that, and the rest is history.

Other trendsetting features include:

- Performance — Using our exclusive REAL HEAT® system, the 1,200-watt in-line heater with maximum 210°F temperature produces hot water that quickly breaks up grease and dirt. The single 3-stage LA (low amp) motor makes the extractor even more effective.

- Has 130' of water lift, 100 CFM.

- Comes with a 1.25" hose. Its size make it easy to maneuver in tight spots.

- The upholstery tool — has a low profile, perfect for detailing.

- Contains a high drain valve. Perfect for emptying into a standard bucket.

- A compact design — Fits perfectly into a van, truck or storage area.

The HP60 Spyder® also offers:

- Durability — With a tough, roto-molded polyethylene material that resists rusting and denting.

Order the HP60 Spyder® today, and see for yourself why this classic design sets the standard for all auto detailing extractors.

Demo / refurbished /blemished means: might have blemish, scratch, rust, or dent, used at a trade show, tested in the showroom by a customer, last years model, return by shipping company,rental return, returned by customer, used by factory for R&D work, or just an out of box just sitting on the shelf special. Limited stock so if you purchase it and we cannot fill the order because another customer beat you to the bargain, your money will be returned. Please do not call to see if it is still available as if the web page is up and viewable, it is available this second. If you delayed and asked if it available so you let some other customer place the order ahead of you. All sales are final. Condition of this machine: "A+ Perfect"

>

*Our refurbished equipment goes through the same type of testing as all of our products do that are ready for purchase. The unit is in perfect working condition when it leaves our facility and includes the same warranty as a new machine (except labor).
