Model Number: XWF3617-SA

AR Pump XWF3617-SA Pump: 9.51/2500 1000RPM Sub-Assembly

Manufacturer: Annovi Reverberi Pumps

AR Pump XWF3617-SA Pump: 9.51/2500 1000RPM Sub-Assembly
Description
The Annovi Reverberi (AR) Plunger Pump XWF3617-SA is an industrial-grade pump that stands out for its top-tier performance, heavy-duty application, and unparalleled durability. The pump operates at a volumetric efficiency of 9.51 gallons per minute (GPM), a pressure level of up to 2500 PSI, and a speed reaching as high as 1000 RPM to deliver consistent power across a wide range of tasks.
This powerhouse of a pump is ideally suited for a multitude of demanding applications. It can be effectively used in high-pressure washing tasks for commercial and industrial cleaning. For car wash facilities and fleet service stations, it ensures unrivaled vehicle cleanups. You can use it for sewer jetting operations, making tough clogs a thing of the past. It finds its function in carpet cleaning services providing deep cleaning for carpets and upholstery. In addition, these pumps are highly efficient in the agricultural sector for spraying and irrigation systems.
Specifications

- Flow Rate: High operational flow rate of 9.51 gallons per minute (GPM).
- Pressure: Achieves a robust pressure level up to 2500 PSI.
- Speed: Performs with blistering speed up to 1000 RPM.
- Applications: Ideal for commercial and industrial cleaning, car wash stations, sewer jetting, carpet cleaning, and agricultural applications.
- Brand: Manufactured by the trusted brand Annovi Reverberi.
