# AR Pump XWL50.20HNB Pump, 13.2/3000 1450RPM Nickel Plated Brass Head

Model Number: XWL50.20HNB

AR Pump XWL50.20HNB Pump, 13.2/3000 1450RPM Nickel Plated Brass Head

Manufacturer: Annovi Reverberi Pumps

AR Pump XWL50.20HNB Pump, 13.2/3000 1450RPM Nickel Plated Brass Head
Description
Efficient and power-packed, the Annovi Reverberi (AR) Plunger Pump XWL50.20HNB is a high-performance pump engineered for durability and reliability. Designed to deliver 13.2 gallons per minute (GPM) at 3000 pounds per square inch (PSI), it operates at a speed of 1450 rotations per minute (RPM). The AR Plunger Pump boasts remarkable versatility and is ideal for a range of diverse applications. This tough, industrial-grade equipment can be effectively used in high-pressure cleaning, car wash stations, sewage pipe cleaning, and agricultural sprayer systems. The AR Plunger Pump's robust structure and high discharge rate make it a preferred choice for industrial reverse osmosis systems. Its adaptability extends to pressure testing pipes and vessels, contributing to its overall efficiency. Safe, reliable, and proven for heavy-duty consistency, the AR Plunger Pump XWL50.20HNB is purpose-built for high-powered, demanding workloads.

*Parts & Accessories > Pumps (Water Pumps) > Annovi Reverberi Pumps > AR Industrial Triplex Plunger Pumps > XW Series > AR Pump XWL50.20HNB Pump, 13.2/3000 1450RPM Nickel Plated Brass Head*

# AR Pump XWL50.20HNB Pump, 13.2/3000 1450RPM Nickel Plated Brass Head

• GPM: The pump delivers 13.2 gallons per minute, ensuring continuous, robust performance.
• PSI: The operating pressure is 3000 PSI, generating high-powered output for hard-wearing applications.
• RPM: Operates at an impressive 1450 RPM, indicating the pump's capability to handle challenging jobs.
• Versatility: Adaptable for diverse applications including, but not limited to, pressure washing, car wash stations, and pipe testing.
• Durability: Built for heavy-duty workloads with industrial-grade components designed for long-term service.
