AR Pump XWLA10G30NB Pump: 10/3000 1750RPM Bronze Rods

Manufacturer: Annovi Reverberi Pumps

AR Pump XWLA10G30NB Pump: 10/3000 1750RPM Bronze Rods
Description
This high-quality and durable Annovi Reverberi (AR) Plunger Pump model XWLA10G30NB operates at an optimal speed of 1750 RPM. Ideal for multiple uses, this pump offers excellent efficiency, reliability, and performance. It is designed to handle the toughest jobs, ensuring an effortless pressure washing experience.
It is perfect for pressure washing applications like industrial cleaning, commercial power washing, surface preparation, and equipment wash-down. In addition, it can be used for removing graffiti, cleaning roadways or parking lots, and other hard surface cleaning tasks. This AR Plunger Pump is recognized for its significant power delivery, user-friendly functionality, and cost-effectiveness, making it a preferred choice among various industries.
Features and Specification
