AR Pump XWM2128HT Pump:5.5/4060 1450RPM HOT
Description
The Annovi Reverberi (AR) Plunger Pump XWM2128HT is a reliable high-powered pump designed for heavy-duty applications. Known for its efficiency and durability, this pump is an excellent tool for various commercial and industrial jobs. Its high-performance specifications, with a flow rate of 5.5 gallons per minute (GPM) and a maximum pressure of 4060 pounds per square inch (PSI), combined with a rotational speed of 1450 revolutions per minute (RPM), ensure it's a top-choice for serious operations.
This plunger pump is perfect for tasks involving pressure washing, commercial cleaning, and agriculture. It also stands out in industrial uses like chemical processing and waste management due to its sturdy build and high capacity. Driven by its top-notch performance in landscaping, this pump proves it has what it takes to manage heavy irrigation systems.
