Model Number: XWM2128N-SX-CR

AR Pump XWM2128N-SX-CR Pump: 5.5/4060 1450RPM W/1698 Gear Box

Manufacturer: Annovi Reverberi Pumps

AR Pump XWM2128N-SX-CR Pump: 5.5/4060 1450RPM W/1698 Description

This Annovi Reverberi (AR) Plunger Pump is a high-performance, reliability-centered equipment that can power your needs with its stellar performance. Designed to deliver pressure cleaning of 5.5 gallons per minute (GPM) and a pressure intensity of 4060 PSI, this pump can handle even the most rigorous cleaning tasks with ease. With a speed of 1450 Rounds per minute (RPM), rest assured that your work will get done efficiently and quickly.

Potential applications for this pump include high-pressure cleaning for commercial establishments, power washing vehicles and machinery, heavy-duty cleaning such as removal of paint or stubborn dirt from surfaces, and pressure irrigation systems for farming or landscaping. Under no circumstances will this pump fall short in power, reliability, or efficiency, regardless of the application.
