Pumptec 81325 Pump, 217V-110/M9253F, 120V, BUNA, M-VALVE, 4 - 1/4" PORTS, BLACK

Model Number: 81325

Pumptec 81325 Pump, 217V-110/M9253F, 120V, BUNA, M-VALVE, 4 - 1/4" PORTS, BLACK

Manufacturer: Pumptec

Pumptec 81325 217V Pump Motor Set (For Kaivac see notes for front mount water connections)

Pumptec 217V Pump Head Only 60063 (Side Ports) Kaivac

Please note to use as a replacement on a Kaivac you will have to re-use the pump front face plate off the original pump.
Note the original is a 2 port head and this is a side port in and out connection.
The front place is easy to change out by just removing the two bolts on the rear of the pump head.
Compare to Kaivac PM217

Pumptec 81325 Pump, 217V-110/M9253F, 120V, BUNA, M-VALVE, 4 - 1/4" PORTS, BLACK

Pumptec Kit, Base Mounting Plate / Bracket For M20/M53/M54 Motors

Note: to use in a Kaivac cleaning machine you just un-bolt the front head and re-use the front head face plate from your original pump.
This way the water goes in and out through the front and not the sides.
This is super easy to do, as you just remove the head from the motor and then remove the two bolts on the back of the pump to remove the front face plate off the pump.
The above procedure will save you over $200 over purchasing the same pump with the pre-drilled and tapped holes in the front of the pump.

Pumptec 81325 Pump, 217V-110/M9253F, 120V, BUNA, M-VALVE, 4 - 1/4" PORTS, BLACK

If you’re upgrading from a 204v, 205V, or 207V pump head to a 217V pump head, you’ll need to add brass adapters.

The 204v, 205V, and 207V models all use 3/8" water ports, while the 217V is designed with 1/4" FIP ports.

Water connections on the above discontinued 204v, 205v and 207v pumps all faced to the rear/towards the motor.

The 217V faces to the side so the 90 degree reducing elbows are the most likely adapters you will need.

Convert your 500 psi carpet cleaning machine into a tile cleaning machine.
