Manufacturer: Clean Storm

Clean Storm 949174, 3/4" FIP 316 Stainless Steel Full Port Ball Valve, 2000 PSI

Description

The Clean Storm 949174 is a heavy-duty 3/4" female threaded (FIP/FPT) ball valve designed for high-pressure, highly corrosive applications. Built from high-grade 316 stainless steel (CF8M) and rated for up to 2000 PSI, this valve provides maximum fluid flow with minimal pressure drop thanks to its full port design. Equipped with a locking handle and durable PTFE seals, seats, and packing, it offers reliable shut-off control across industrial, chemical, marine, and pressure washing operations.

Features

- **316 Stainless Steel Construction:** Offers superior corrosion resistance against aggressive chemicals, saltwater, and harsh industrial environments.
- **Full Port Design:** Ensures unrestricted fluid flow and maximum volume with negligible pressure drop.
- **2000 PSI High-Pressure Rating:** Engineered to withstand demanding high-pressure fluid systems.
- **Locking Handle Safety:** Features a 304 stainless steel operator handle with a built-in locking mechanism to prevent accidental opening or closing.
- **Chemical-Resistant Seals:** Premium PTFE packing, seats, and seals deliver smooth operation and a tight leak-proof seal.
