Parts
Manual

Note when operating on single phase you are using 3120 Watts of power.
When operating on 3 phase current, you are operating on 3600 Watts of power.
Most 120 volt power tools use a max of 1440 watts of power.
This means that Husqvarna Prime products will provide 116% more power, speed, and performance than standard 120 volt wall tools when using the single phase option and 250% more power one three phase current.
240 volt three phase option offers 15.38% more power, performance, and speed over single phase use.
Single phase 240 volt current is available at every job site in the USA, Canada, Mexico, and Japan with the optional power supply pack below.
480 volt 3 phase 10 amp offers 14,400 Watts of power to your prime tools.
That's 10 times the power of 120 volt tools.

Demo / refurbished / blemished means: might have blemish, scratch, rust, or dent, used at a trade show, tested in the showroom by a customer, last years model, return

by shipping company, returned by customer, used by factory for R&D work, no factory box. Limited stock so if you purchase it and we cannot fill the order because another customer beat you to the bargain, your money will be returned. Please do not call to see if it is still available as if the web page is up and viewable, it is available this second. If you delayed and asked if it available so you let some other customer place the order ahead of you.
All sales are final.
Same factory warranty as brand new: 1 years parts!
Extended the warranty to 3 or even 5 years for a little more with no hour exclusions.
Condition of this machine: "A" Only 1 at this price!
Our A rated demo equipment usually has less than 100 hours on it
