Manufacturer: Husqvarna Equipment

Husqvarna 970763403, Multi-Rack Battery Charger, 40-C1000X4, US, CA, Power Cutter Accessories

Description

Husqvarna 40-1000X4 multi rack charger for charging anywhere you want – in the workshop, at the work site, in your car or trailer. The 40-C1000X4 enables simultaneous high-power charging of up to four Husqvarna BLi-X 36V batteries in one unit, and thanks to smart load balancing, all batteries will be charged fast and efficiently. Fulfills IPX4 classification for water resistance for use in all weather conditions. Charger and storage – the multi rack chargers offer an all-in-one set-up for time-saving handling of batteries. Batteries are not included.

Features

- The smart charging via load balancing secures highly efficient charging of all inserted batteries. This enables short charging times and by this high productivity.
- LED indicators give an easy overview on the charging status of the batteries without the need of opening the charger.
- With maximum 1000W charging power in total and maximum 600W charging power per battery slot, the 40-C1000X4 multi-bay charger enables short charging times resulting in high uptime and increased productivity.
- Thanks to it's compact design the multi-bay charger can easily be handled between workshop and work site.
- The unit fulfils the IPX4 classification for water resistance. This makes it a long-lasting and reliable charger that can be used all year round in all weather conditions.
- High-quality materials and proven components, tested according to highest standards offers high durability.
- Shock-absorbing bumpers with high friction prevent the charger from damage and unintentional sliding.
- Ergonomic lid handle, ideal when carrying the multi-bay charger.
- Thanks to the integrated side handles, the unit can be lifted in a more ergonomic way, reducing the strain on your body.
- The stackable design enables space-saving storage, both in the workshop and during transport.

>

- A padlock or wire lock can be attached to protect both the batteries and the unit itself from theft.
- The tool compartment placed in the lock allows bringing smaller tools or spare parts with you.
- The high performing BLi-X 36V battery system offers a wide range of options, from lightweight integrated- to backpack batteries. The batteries within our 36V system are built to be used over a long time, are quick to recharge and even quicker to swap for continuous use. Our BLi-X battery system allows flexible use in different Husqvarna tools. You will always find a tailored battery solution that perfectly suits your task at hand.
