Manufacturer: Husqvarna Equipment

Husqvarna 970605501, Propane Floor Grinder PG 8 P, 27 hp Onyx LX 900, 31.5 in (800 mm) Width, GTIN 805544367158
Description
A propane-powered variant of the Husqvarna PG 8, our largest and most powerful floor grinder. An integrated water tank enables wet grinding, while the propane engine eliminates the need for electrical access – making the PG 8 P the perfect choice for large outdoor concrete areas. The fuel system reduces the risk of freezing when using liquid withdrawal propane. Key components are sealed against dust and slurry for maximum reliability and low maintenance. Adjustable weights are included with the grinder, providing extra grinding pressure and making the machine easy to handle, tilt and operate. For dry applications, combine your grinder with a Husqvarna cordless dust extractor. Use a Husqvarna slurry vacuum to manage slurry when wet grinding, or connect the PG 8 P to a Husqvarna cordless dust extractor to manage dust when dry grinding.
Features

- Equipped for wet grinding
- Sealed to last
- Adjustable grinding pressure
- Improved dust pick-up
- Hour and RPM meter
- Ergonomic handle
- Always in control
- Fuel injection
- Exhaust catalyst
- Fleet ready
- Time saving tool change
- Quick release of tool holders
