Application: Reinforced concrete, brick & block

Features

• The composition of the blade is designed for high speed in hard materials.

• The composition of the blade is designed for high speed in universal construction materials.
• Thanks to segment shape and composition, you get easier and more free cutting blades, which results in minimal vibration levels and a better cutting comfort.
• Our 'Easy-fit' system allows the expansion of the bore hole from 20.0 to 25.4 mm. This enables you to mount the blade on different types of machines (power cutter, table saw, floor saw). Applies to blade diameters up to 400 mm.

• All Husqvarna blades are designed and produced according to EN13236 standards. Husqvarna is also a leading member of OSA (Organisation for the Safety of Abrasives), guaranteeing the user a safe and trouble-free operation of its products.

• All Husqvarna blades are produced according to ISO 9001 quality standard, using the best materials and production methods, guaranteeing a stable and consistent
