Description

NXS blade cuts metal, concrete, stone, rebar and brick/block. This blade incorporates a thicker, electroplated core with cooling holes for protection during deep cutting, with an extremely fast turbo segment. Total segment height of this blade is .200" diamond depth.

Application: Rescue blade designed to cut through metal and construction materials/Thicker electroplated core with cooling holes for protection during cutting

Features

• The segments' design reduces their contact with the concrete surface. This provides a quick and controlled start when using a new blade.

• With several unique features that combine straight, turbo and/or protection segments, it enables you to cut a wide range of materials whilst maintaining the highest speed and longest lifetime.

• Cutting in rescue operations.
