PMF V1245A Aluminum Valve 400 Psi Hand Tool 535-105 with Hanger AC31V5

Best Use
This valve is a good choice when replacing the valve on a low-to-medium pressure upholstery or detail tool where a lightweight aluminum valve is preferred. It is commonly used on portable carpet extractors and hand tools operating at or below 400 PSI.
Important Compatibility Note
Always verify your current valve style, inlet/outlet thread size, hanger style, and tool mounting before ordering. Photos are for reference only. Orders are fulfilled by the part number ordered.
Recommended Add-On Items

- R1245 valve repair kit
- 1/4 inch brass nipples and elbows
- 1/4 inch quick disconnect couplers
- Barbed hose fittings for clear solution hose installations

Frequently Asked Questions
Is this a brass valve?
No. This is the aluminum version of the PMF hand tool valve.
What pressure is it rated for?
This valve is rated up to 400 PSI.
Does it include the hanger?
Yes. This listing includes the lever and hanger AC31V5.
Can it be rebuilt?
Yes. The repair kit is R1245 and is sold separately.
Will this fit every upholstery tool?
No. Please compare your existing valve, fittings, and hanger style before ordering.
Shipping Note
Steambrite processes shipments by FedEx, UPS, USPS, and freight carriers. Website availability does not always reflect local San Antonio warehouse inventory. Special order or custom build items may require additional lead time.
