Description
If you’re looking for a soft wash hose reel, the Steel Eagle KSE-1000-SW is the one for you! Steel Eagle designed this hose reel with soft wash professionals in mind. Each component is made with 304 stainless steel due to the superior corrosion resistance of this material. This includes the frame, inner drum, fasteners, lock pin, and center hub. It features a heavy-duty 1/2-inch Super Swivel that endures 4000 PSI and plumbing allowing fluid to move through your hose uninterrupted by the reel. Easy turn handle reduces operator fatigue substantially which helps with efficiency on the job. A friction brake helps to reduce hose backlash during the unwinding process. Once the hose is wound up at the end day, a lock pin keeps it from unwinding. You can also use the lock pin to lock the hose at a specific length. If you need to run hot water this soft wash hose reel from Steel Eagle will endure fluid reaching up to 325 degrees Fahrenheit. It also has predrilled mounting holes to save you time when mounting the reel. It holds 325 feet of 1/2-inch diameter hose. Capacity varies depending on the hose diameter. Please see the list below.
Hose Capacities:

- 325' of 1/2" hose
- 450' of 3/8" hose
- 275' of 5/8" hose
- 225' of 3/4" hose

Features:

- 304 stainless steel components resist corrosion
- 304 stainless steel center hub - other reels use PVC which cracks and breaks rather quickly
- Easy-turn handle reduces operator fatigue
- Pre-drilled mounting holes for fast and easy installation
- Friction brake prevents hose backlash
- Heavy-duty nickel-plated Super Swivel - may be susceptible to corrosion
- Lock pin prevents the hose from unwinding when not in use
- Stainless steel plumbing resists corrosion
- All stainless steel fasteners
