Husqvarna 967854803, 14in 350mm LF 60 LAT, Forward Plate, Soil and Asphalt Compactor, Honda GX120, GTIN 805544604468

Manufacturer: Husqvarna Equipment

Husqvarna 967854803, 14in 350mm LF 60 LAT, Forward Plate, Soil and Asphalt Compactor, Honda GX120, GTIN 805544604468

Description

LF 60 LAT is a lightweight, fast-operating forward plate compactor, designed for efficient compaction of asphalt and soil. It is ideal for repair jobs and maintenance work such as driveways and parking lots. The large water tank features an oversized cap to enable less frequent and faster refills. The machine is easy to clean, leaves no marks on the pavement and uses whatever water is available on-site.

Features

- The efficient, patented low-vibration handle lowers the vibration levels below 2 m/s², allowing you to work for hours without becoming fatigued or exceeding any regulatory threshold limit values.
- The watering system, that prevents the bottom plate from sticking to the hot asphalt, uses only a minimum of water thanks to the easily adjustable water flow.
- The large corrosion-free water tank and smart water distribution system enable you to work longer with less stops for re-filling.
- Equipped with transport wheels for effortless transportation.
- The bottom plate is specially designed for asphalt work, ensuring it will not get stuck on hot asphalt or leave turning marks.
- The handle completely folds to save space, making transport and storage easy.
