Husqvarna 967859101, Concrete Screed Blade Set, 14 ft (4.3m), BV 30, GTIN 805544670029

Manufacturer: Husqvarna Equipment

Husqvarna 967859101, Concrete Screed Blade Set, 14 ft (4.3m), BV 30, GTIN 805544670029

Description

Screed blades for the versatile, petrol-driven walk-behind concrete power screed Husqvarna BV 30 are designed to deliver a high-quality slab. Can be used on thin slabs up to 100 mm without other vibration. Interchangeable blades allow for five different working widths. With their round ends, the blades are designed to leave the least possible marks so that less additional surface work is required. Since the blades are lightweight and rigid the vibration will be transferred uniformly to deliver a high-quality slab finish.

Features

- Multiple working widths
- User and service friendly
- Professional results, every time
- Quality and durability
- Easy cleaning
